

Optimizing Your Operations

Supporting you every step of the way

From the very first day you switch on your LBBC Technologies' Boilerclave® or Leaching Autoclave, we can offer you lifetime service and support to maximize your investment.

What we can offer you:

- Planned Preventative Maintenance (PPM)
- Annual Servicing
- Discounted Rapid Spares Response Service
- Health & Safety Audits
- Training
- Consultancy
- Site Survey

The benefits to you and your business:

- Optimize Reliability & Efficiency
- Minimize Downtime
- Maintain Safety Levels
- Improve Budgetary Control & Planning
- Peace of Mind

Optimize Reliability & Efficiency

- Maximise return on investment through regular maintenance programmes scheduled to suit your business needs.
- Identify potential for technical improvements and evaluate unit and component condition with annual services and PPM's.
- Boost employee productivity and efficiency through consistent training and tailored refresher programmes with on- or off-site with experienced and qualified technicians.

Minimize Downtime

- Avoid costly downtime through identifying potential problems or failures before they arise with annual services and PPM's.
- Access our priority 24-48 hour engineer response to site services, depending on location, for emergency breakdown maintenance.
- Maximize uptime by ordering spares online 24/7 with next day, maximum 48 hour, delivery.
- Align annual service and PPM's to production and shut down programmes on a monthly, quarterly, annually or ad hoc basis.
- Empower in-house maintenance teams to minimize downtime and disruption through transferring knowledge and skills through training programmes.

Maintain Safety Levels

- Improve health & safety through eradicating the risk of malfunction leading to serious accidents with annual services and PPM's.
- Ensure compliance with current legislation, including SAfed, with health & safety audits and consultation.
- Conform to in-house health & safety policies and guidelines.
- Guarantee operator and maintenance competence with regular training and assessments.

Improve Budgetary Control & Planning

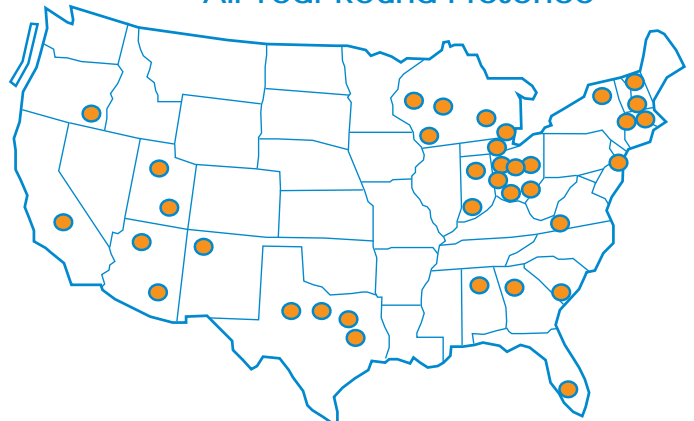

- Manage cashflow and forward budgeting with potential problems and failures identified with annual services and PPM's.
- Assist planning with service visits scheduled and pre-planned to suit your production needs.
- Tighten cost control through fixed term contracts and reducing expensive rectification costs.
- Minimize the cost of holding stock and improve stock management with fast, reliable and discounted spares response service for contract customers.
- Lower insurance premiums through adhering to optimum safety standards.

Achieve Peace of Mind

- Your service requirements are managed for you.
- Enable in-house maintenance to focus on other priorities.
- Ensure legal compliance and health & safety standards through regular training and audits.
- Identify opportunities for technical and performance improvements.
- Avoid costly downtime through identifying potential problems and failures.

For more information on how LBBC Technologies can offer you lifetime support through combining on-site technical assistance and service with in-house support, please contact our service and support team on telephone: +44 (0)113 2562155 or email: service@lbbc.co.uk
